

CATHERINE ZHAROFF

VETERINARY CLAIMS & MEDICAL RECORDS CANDIDATE

Sumner, WA | (425) 802-3316 | catherine.zharoff@gmail.com

PROFESSIONAL SUMMARY

Veterinary professional with 20+ years of small-animal clinical experience and a strong foundation in medical documentation, disease processes, pharmaceuticals, diagnostics, treatment workflows, and client education. Experienced reviewing patient histories, recording clinical information, coordinating prescriptions, and working accurately across high-volume cases. Proficient in Cornerstone and AVImark and prepared to transition clinical expertise into remote pet-insurance claims review and file documentation.

CLAIMS-RELEVANT QUALIFICATIONS

- Veterinary medical records, chart notation, patient histories, invoices, and treatment documentation
- Disease processes, acute and chronic conditions, medications, vaccines, diagnostics, and laboratory results
- Cornerstone and AVImark practice-management software; comfortable learning new technology and workflows
- Clear written and verbal communication with veterinarians, clinic teams, and pet owners
- High-volume, multi-line telephone experience; client education regarding medications, treatment, and aftercare
- Detail-oriented case follow-through, organization, prioritization, confidentiality, and independent judgment

PROFESSIONAL EXPERIENCE

Veterinary Assistant | April 2023–Present

Timber Ridge Animal Hospital | *Bonney Lake, WA*

- Support veterinarians during examinations, surgeries, and dental procedures while maintaining accurate, timely patient documentation.
- Review patient histories, clinical findings, diagnostics, medications, and treatment instructions to support continuity of care.
- Prepare and administer vaccines and medications under veterinarian direction; apply extensive knowledge of pharmaceuticals, dosing workflows, and patient safety.
- Perform diagnostic radiography and assist with laboratory and procedural workflows, recognizing information relevant to acute and chronic conditions.
- Educate clients about medications, treatment plans, preventive care, and aftercare using clear, compassionate communication.
- Use Cornerstone practice-management software to access and update patient records, treatments, communications, and related documentation.

Veterinary Assistant / Staff Lead | January 2001–2018

Animal Hospital of Newport Hills | *Newcastle, WA*

- Supported seven veterinarians in a busy walk-in small-animal practice, managing competing case priorities and documenting clinical information accurately.
- Recorded chart notes, coordinated case details, reviewed procedure invoices, and maintained clear information across patient and client workflows.
- Collected blood, urine, fecal, tissue, and other specimens; performed in-house urinalysis and used IDEXX Catalyst and ProCyte diagnostic equipment.
- Assisted with surgical induction, preparation, anesthesia monitoring, recovery, dental care, radiography, emergency triage, and routine examinations.
- Filled prescriptions, coordinated refills, monitored medication and medical-supply inventory, and supported product ordering.
- Used AVImark to maintain patient information and supported multi-line telephone communication, scheduling, payments, and client follow-up.
